

OUR ERASMUS JOURNEY

Yasmin Keleşoğlu-
Doruk Poyraz Gökoğuz-
Ahmet Talha Aksar

How did we start this project?

- Jochen Prinz is the founder of this project
- After the lasting long phone calls and e-mail traffic which is started before the covid epidemic the principles and teachers came here in October 11th. However, Martijn attended with video chat since he was not able to arrive here.
- At the stage of structuring this project the teachers who are Jochen Prinz, Eva Brass, Wolfgang Rieger, Wiebke Ehlers, Angelika Wollny and Sarah Hoerkins and Jochen Prinz came to Istanbul.

- Our teachers structured the first steps of the project.

How does the project of "TULIP" emerged?

Since tulips combines three different cultures which are Dutch, German and Turkish it can be claimed that tulips have a mutual affect on these cultures. Because of that we have decided to be involved with tulips in this project.

This project will take a closer look at the historical background, the economic aspect and the biological impact of the tulips and the students have to deal with them artistically.

First part(April 4-9 / 2022) /Welcome In Turkey

What did we do in
Istanbul?

What did we do in Turkey, Istanbul?

- In Istanbul we explored the city's rich history and culture. We visited famous landmarks such as the Hagia Sophia and the Blue Mosque. Therefore, we were able to explore many museums and art galleries. Since we also experienced the vibrant street life, we had been able to try delicious Turkish cuisine, and shop for unique souvenirs in the Grand Bazaar or the Spice Market. Additionally, we participated in cultural events such as marbling painting art.

Video about our journey in Istanbul;

Second Part- Going to the Netherlands (May 2022)

What did we do in Netherland?

- In this part of the project, we explored the country's rich culture and history. We visited famous landmarks such as the Rijksmuseum, and explore the city's many museums and art galleries. We also experienced the city's unique culture, which is a blend of Dutch and international influences. Additionally, we explored the city's many canals, parks, and gardens, and had a chance to learn about tulips importance for Netherlands.

Video about our sports experience in the Netherland

Third Part – Going to
Germany(October 22-29 / 2022)

What did we do in Germany (Museum König)

- In the third part of our project, our activities took place in Germany. Although we stayed in Bergisch Gladbach for a week in Germany, we traveled to different cities such as Bonn and Cologne for a week to conduct research on tulips and biological and historical fields. Besides our studies, we visited the Chocolate Museum, did the climbing and ended our process in Germany with many unique activities.
- In addition, we made our project more efficient thanks to activities such as tulip planting and clothes dyeing in our school activities.
- We learned a lot of information about the history and culture of Germany with city tours.

Fourth Part- Going to the
Netherland(March 2023) (with new
students)

What did we do in the Netherland?

- We continued our activities with our new group and new friendships, together with the activities did with old group . In the Netherland we also participated in outdoor activities such as cycling. Additionally, We explored the Dutch countryside and visit small towns and villages, where we experienced local culture and traditions with the art galleries and museums we went. And had a chance to visit a famous city such as Amsterdam and collect great memories in there.

What does this program provide us?

- This program focuses on cultural exchange and building friendships between students from different countries. It provides students with the opportunity to experience new cultures and to learn from their peers, while also promoting understanding and respect for diversity. Many students who participate in the program develop lifelong friendships and gain a new perspective on the world.

What are we
going to do
in this week?
